

FAN

# DF 30P

## FUNCTIONING PRINCIPLES

Forced air flow is axial fan. Air is sucked into the rear of the device and is the outlet of the front.

## TECHNICAL DATA

Max capacity	kW	0,395/0,465	Power supply	V	230
	Kcal/h		Frequency	Hz	
	Btu/h		Rated current	A	1,64/1,93
Combustible		Power			
Net weight	kg	24,2			
Gross weight	kg	27			
Noisy	dBa				
Air displacement	m <sup>3</sup> /h	15180/16800			

## PACKING

Dimensions packing	mm	920x340x945
Dimensions utilization	mm	910x330x935
Pieces for Europallet	n°	6
Pieces full truck	n°	198

## COMPONENTS

Motor

Asynchronous, monophase, with thermal protection, clockwise rotation, 1200/1300 rpm

## ACCESSORIES

## WIRING DIAGRAM

L	:	Phaze
N	:	Neutral
