

This professional battery charger is capable of charging 6 & 12 volt batteries on cars, vans, agricultural and commercial vehicles.

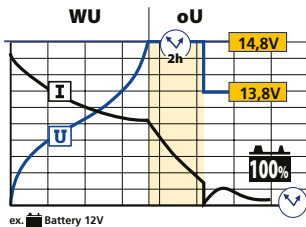

- Automatic charge, without supervision.
- Safe to use without disconnecting the battery from the vehicle.
- 2 charging speeds.
- 3 LED indicators: power supply, charge in progress and battery fully charged.

- Copper wound transformer
- 1.50m charging cables
- 1.30m power supply cable

TECHNOLOGY

WUoU

- Charge to 100% lead acid, gel, calcium and AGM start/stop batteries (Curve Wuou) from 20 to 150Ah.

GENERAL PROTECTION

- Thermal protection of the transformer
- Protection of the on-board electronics
- Protection against polarity reversal with a 25A fuse
- Clamps are insulated to avoid sparks
- Metal case
